- **09/2008 – 09/2011** | Bachelor's degree in Common Law | University of Yaoundé II, SOA, Cameroon

SKILLS

TECHNICAL: Cloud (AWS services, tools and best practices), Configuration Management, Jenkins, Spinnaker, Sysdig, Grafana (Prometheus), Kibana, Spot.io, Containers, JavaScript, Linux, Python, Kubernetes, HTML, CSS, Jira, Draw.io, Bitbucket, GitHub.

DURABLE: Communication, Teamwork & Collaboration, Observability, Leadership, Critical thinking, Orientation to details, Problem solving, Persistence, Accountability, Proactivity, Time management, and Growth mindset.

EXPERIENCES

DevOps Apprentice at Verizon: November 2021 - Present

- Experience working with the AWS services like AWS CloudFormation, AWS CloudFront (CND), AWS EC2 instances, AWS EKS
- Good management of repositories with bitbucket and CI/CD workflow with Jenkins
- Experience in logs analyses, visualizations on dashboards and monitoring with Kibana and Grafana
- Fluent in working with OS like Linux, Ubuntu, and with languages like Python, Kubernetes
- Worked and created a confluence documentation for cross account role assumption on IAM roles

MULTIVERSE – Part of my apprenticeship program

- Trained on software engineering as we focused on specific topics; JAVASCRIPT, REACT, RESTful APIs, CI/CD, and WEB SECURITY
- Actively participated in projects realizations like Warehouse Inventory App, and Pet Adoption App
- Experience with GitHub, ERD, Bootstrap, Postman, Jira, Jenkins, Kubernetes, Docker, Python, and AWS

Cashier / Customer Service at THE HOME DEPOT: October 2020 – Present

- Contributed to improving the aspect of the Protection Plan handling at the SCO
- Improving on DLP (awareness & integrity), cross training, collaboration and self-control
- Empathy and problem solving to ensure a positive customer experience with friendly & courteous services
- Effective communication skills, including active listening, writing, speaking and reading comprehension

E-Commerce Clerk at KROGER Marketplace: April 2020 – October 2020

- Did online shopping where customers only had to come pick-up their groceries already prepared by us
- Did troubleshooting on computers and other equipment to keep up with a good workflow
- Effectively handled interruptions, ensured accurate productivity and time management

Project coordinator at TANDYL Limited / DPC S.A: October 2016 – August 2019

- Managed Projects following the applicable rules and standards in the field
- Ensured proper transmission of required information within the project
- Implemented quality action plans (correction, modification, validation)
- Administrative and financial follow up of projects
- Intermediary between the enterprise and external parties
- Organized meetings for the successful progress of my projects and produced report

HOBBIES

Traveling, Cooking, Cleaning, Dancing, Walking, Movies, Researching, Discoveries, and Family time.
